Education

University of Pittsburgh, School of Computing and Information

B.S. Computer Science / B.A. Digital Narrative and Interactive Design

Pittsburgh, PA

August 2022 - April 2026

Projects

Pokémon Drafting App

Developer

- Created the front end for a feature-rich Pokémon Teambuilder webapp.
- Pulled image and textual data from PokeAPI.co to display chosen Pokémon sprites with their given typing.
- Built using the React framework Next.js, written in TypeScript, and deployed through Vercel.

Authentication App

Developer

- Used Node.js with the Express framework and the passportJS package to set up an authentication service.
- Constructed a MongoDB database to store registrations with encrypted passwords using bcrypt.

Weather App

Developer

- Utilized the OpenWeather API to fetch weather data from a server via async functions and callbacks.
- Designed a minimalist user interface complete with engaging CSS animations.

Community Involvement

Kappa Theta Pi Fraternity

Brotherhood Chair

- Organizes and promotes social events with the Public Relations Chair
- Fosters social relations and friendships between brothers.

Pittsburgh, PA

September 2022 – Present

Post Genre

Photography Team
